Gas Mains Replacement Valley Road Worksop

Dear Sir/Madam

English not your first language? To request a translation of this letter, call or email us.

Following agreement with the local authority this project will start at the Junction of Raymoth Lane/Valley Road during the Month of January and will last approximately 12 weeks. Network Plus on behalf of Cadent will soon be commencing works on the gas mains in your local area. These works are essential to maintaining a safe and efficient gas infrastructure and supply to your homes/district.

- **We do not anticipate affecting your gas supply, but if this changes, we will be liaising with you independently to discuss the work.**
- We may need access to **other properties**, on your street, whilst we continue with our work.
- Works will be carried out in several phases with a planned start date of 9th January 2023 and completing late March

There is likely to be some disruption to traffic due to temporary signals or diversions that we will need to put in place while we complete our works.

- Traffic flow will be maintained during our work
- We may impose on any on-road parking.
- There is a possibility of weekend working.
- We will have temporary traffic lights in place (traffic management plan on reverse of this letter shows locations for 3-way lights. At other times we may be using 2-way lights)
- We may need to suspend any bus stops in the immediate vicinity of our works

If you have any questions or concerns, please call us on **0800 090 3071** or email CustomerCareEM@cadentgas.com. Alternatively, you can scan the QR code below on your mobile to make an enquiry online.

Please accept our sincere apologies for any inconvenience this work may cause, please rest assured we will endeavour to keep any disruption to a minimum.

Yours faithfully,

EM Care Team
Cadent
